

Elite Balance Air Mattress

Nineteen individual air cells provide a unique design which keeps the lower layer of air cells constantly inflated while alternating cells inflate and deflate the upper layer.

FEATURES OF THE ELITE BALANCE AIR

- ▶ Digital pump with light-up display allows for effortless user experience and control
- ▶ Pressure control settings allow patient to set their personalized comfort setting depending on weight
- ▶ Auto-Detection setting automatically detects the patient weight and sets the appropriate pressure output for optimum patient comfort and ease
- ▶ Pump features audible and visual low pressure, power failure and machine malfunction alarms
- ▶ Split cell-on-cell design allows the patient to remain in an upright position and keeps mattress inflated up to 24 hours if loss of power should occur
- ▶ In the event of a medical emergency, mattress features a rapid deflation CPR valve

HCPCS Code: **E0277**
